By the arrival of the steamship *El Dorado*, from Oregon, we have five days' later news from California. Our dates are to the 21st of January, inclusive. The *El Dorado* brings nearly a million of dollars in gold dust. Advances from the mining regions of California do not vary materially from those brought by the Daniel Webster a few days since.

### MISCELLANEOUS.

WONDERFUL AND MOST ASTOUNDING EVIDENCE of recovering the hair—Thousands of others can be shown at the Whole Sale Dept., 230 Pearl street; or of injured eyes—restored to sight—by Dr. Kellinger, 72 Broadway, between Grand and Broome streets, white front house, in large beautiful toilet bottles, on times cheaper than the cost of the best perfumes. His services are well known, and his fees are reasonable, but every one is greater than hers represented. There never has been such a success in the restoration of the hair. It has always been set down as impossible to restore a head of hair after twenty years—but the very man says privately, who has had his hair recovered, that it was not until he had got a 20% a better if it were not for plucking out the poor hairs are turned away. Don't fail to read the following, and then you will know the exact truth. You will find me in California to see its state; but you have names of respectable people that cannot be found in your own city. Call and speak to me. I am in New York, 72 Broadway. It is most delightful in its color and action.

J. H. MURKIN, 68 Old Water Street, New York.

DR. KELLINGER—MY DEAR SIR—MANY PEOPLE have asked me to inform you of the restoration of my hair, which was all gone for many years. It is a pleasure to make my case known, as I was bald for over ten years, by strong persuasion, induced to try again by the use of various nostrums, which had failed him.
